

[Austria Conference 2004](#)

We flew to Munich from Belfast and Stansted and travelled by coach to the conference in Austria. It was held in a lovely Austrian castle, high in the mountains. There were over 75 pastors and delegates from various countries including Belarus , Ukraine , Albania and one from Burkina Faso . There were three 2 hour meetings each day and the pace was hectic. The pastors were there to be encouraged and built up and we enjoyed the teaching and fellowship.

[Schloss Mittersill, Christian Conference Centre](#)

We got to present the work of Language Recordings on the 2nd day and the response was unbelievable. We played cassettes in all their languages and as each heard their own they cheered and stood up. They all wanted cassettes, booklets and Messenger players. We took 10 of each cassette in these languages and immediately after the meeting they

had all gone. They then gave me their name and addresses and what church they belonged to and could we please send them our materials. They had never seen them before and they all wanted all we could give them.

One lady who was a Sunday school representative for a huge church in Belarus said that she was responsible for 375 Sunday Schools but they have no materials at all. Our hearts really went out to her. Others said they reach out to Gypsy groups and wanted Gypsy cassettes. Others wanted cassettes for non readers, prisons, hospitals and outreach projects. Many requested scriptures on cassette. We have a huge list of "orders", and the potential is enormous.

This confirmed and encouraged us that there is so much need in Central Eastern Europe and all over Europe for our materials. Also we have contacts for recordings in Albanian and Belarus Gypsy. I was also able to record in Russian with a translator who was there. We have also invitations from churches in Belarus, Russia, Ukraine and Albania to go and minister and share about the work wherever it is possible.

It was also especially good for the team we travelled with to see our materials in action and they were very impressed. Hopefully they will be able to help with the delivery of these orders to the various countries.

In between all this we got to have 2 afternoons site-seeing in the mountains and we arrived back home safe and sound on Saturday night. We had a wonderful and blessed

time and we are so thankful to The Lord for giving us this special time. It seems like this will open many new doors for LRUK in Europe . When we returned we were able to send out huge amounts of our materials and to particularly the lady who desperately wanted Sunday Schools materials.
