

From Kenny at Language Recordings UK.

A recent Recording in Mongolian.

Language Recordings UK is a missionary organisation based near London who record & provide Bible stories in over 6,100 languages. These recordings are made in story telling form and are very useful to reach oral communities who don't or can't read. Much of the world is like this with almost two thirds unable to read. We supply our recordings on CD, DVD, and cassette, on Internet free and on mobile phone devices.

Last week we had the privilege to record in the "Mongolian Halh" language with a student from Mongolia in the Lee Abbey centre in London. This proved a very successful project. A friend of ours Chris, who is the Buildings/Projects manager and I had spoken together about year ago about the possibility of making recordings with the many different language speakers who come to work at the centres for up to one year.

We recorded two messages from our "Look, Listen & Live" series Book 3 and 6. These are an audiovisual presentation and the recordings are accompanied with a picture book or can be supplied on DVD. They can also be downloaded free from our web site at.... www.globalrecordings.net

We also have a new mobile phone web site 5fish.mobi where anyone with an android phone can listen to the Good News stories in their own language. Try it for yourself and pass on this link to your friends.

We will now edit and produce this new recording and have it available as soon as possible. It will then be put on our web site and can be listened to by any Mongolian speakers wherever they live in the world.

We trust you find this information satisfactory and if you want to know more about our work, have a look on our website at www.languagerecordingsuk.co.uk If perhaps you would be able to help us in our future recording projects we would be very pleased to hear from you.

God Bless you and bye for now.
Kenny McKee.
